

Bespoke structural glass solutions to meet a wide range of building and refurbishment projects

With over 20 years in the industry, Glass Solutions is a comprehensive service for fully bespoke architectural and structural glazing.

Whether it's a staircase renovation or a more complex structural glass fixture in a luxury, high end residential property, our team applies the same quality and professionalism to achieve the best possible result.

We pride ourselves on our premier service meeting difficult and technically demanding briefs, by using our time served expertise and structural glass engineering skills.

PROJECT MANAGEMENT

Our experienced project management team will oversee any range of architectural and structural glass project.

SURVEY AND ADVICE

The perfect result in structural glass can only be achieved with accurate design, measurement and surveys - we can handle this, so you don't have to.

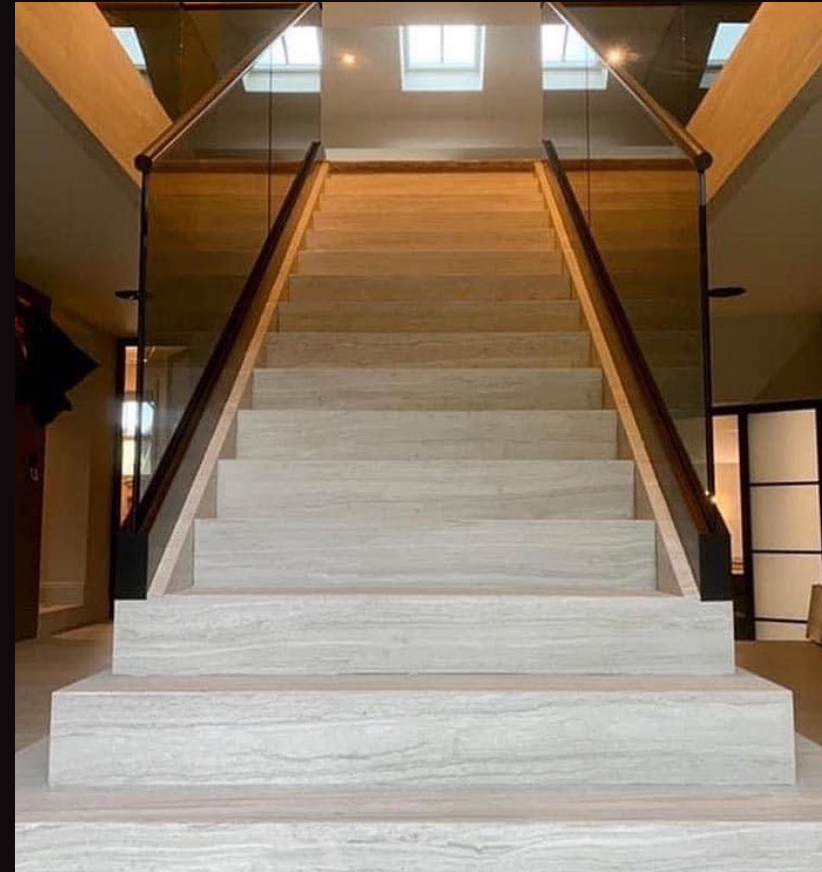

GLASS INSTALLATION

The final stage of what is often many months of work, discussions and planning, perfectly executed by our team.

MAINTAINING INSTALLATIONS

Our personal approach ensures your installation is in good hands for many years to come.

Every project we undertake is unique. We work with architects, builders and designers to ensure each and every installation meets your individual requirements.

The quality of our installation teams is crucial to the success of your project – and our well earned reputation!

We appreciate we may not be the cheapest, but our combination of efficient pre-installation management and our well-trained installation team is what sets us apart when it comes to completing your glass project.

Be it in the home or a commercial premises, we have extensive experience and knowledge to handle your project.

We use only the best quality materials that will reach the highest safety and security standards, working efficiently and neatly to avoid or reduce any disruption to clients.

All our projects are surveyed to ensure the design, layout and initial measurements are templated as required. All our installations will be carried out by our fully trained and experienced Glass Solutions technicians.

Glass Balustrades & Balconies

Let's go back to basics. What is a balustrade? In simple terms a balustrade is a barrier that goes around the edge of a designated area, such as a balcony or staircase to make it safe.

Our balustrades offer a beautiful design without compromising on safety.

Options and products we offer include:

Frameless glass designs 🌀 Juliet glass balconies

Decking glass 🌀 Glass walls and windscreens

Stainless steel and glass

All glass in our projects will comply with building regulations.

Staircase Renovation

At Home Glass Solutions we can renovate any staircase to a modern or traditional design. Our standards are high and to ensure we meet the highest level of workmanship our family business skill set consists of qualified joiners and engineers. Any project that we are instructed to take on always has our full attention.

We only use the best materials and fittings to ensure we achieve the best results.

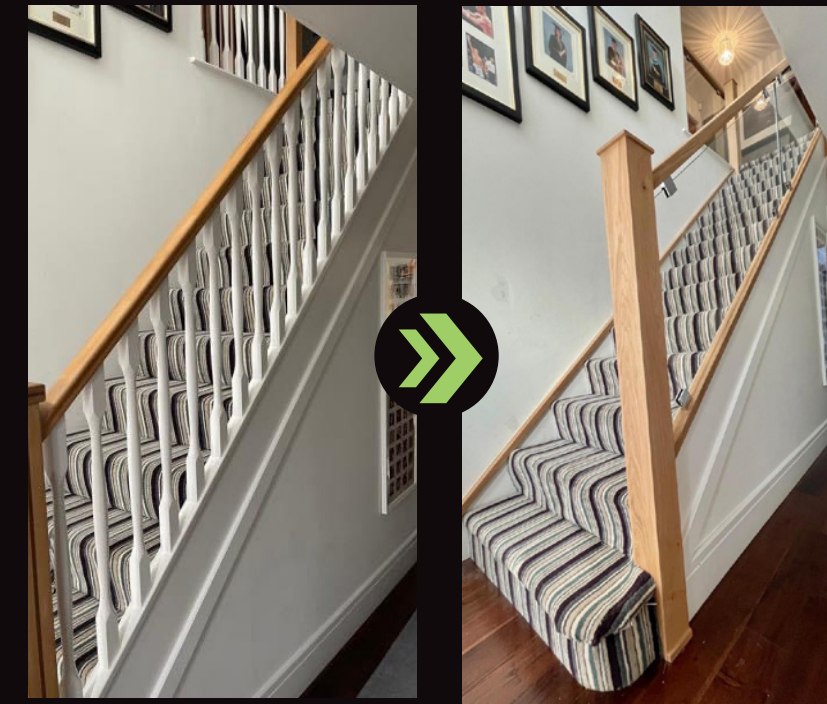

Oak and glass designs - easy to maintain, creates space and light

Modern and contemporary finishes

Frameless glass designs

Safety glass to comply with building regulations

Maintenance packages and aftercare information provided

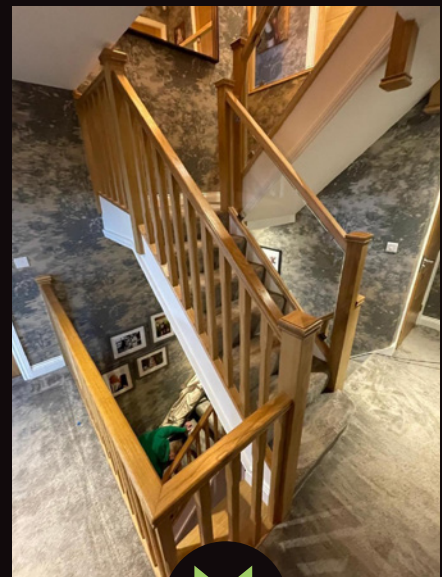

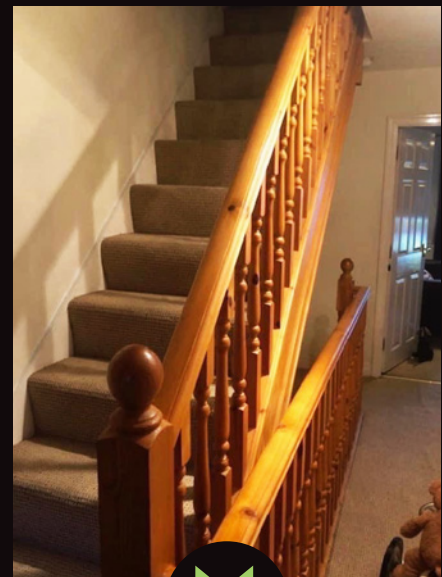

Transform your staircase into a talking point!

Our range of staircase renovation designs can bring your staircase back to life with no extra structural work needed. Whether you are looking to maximise light in your home with glass, or add a modern metal balustrade, we have the answer.

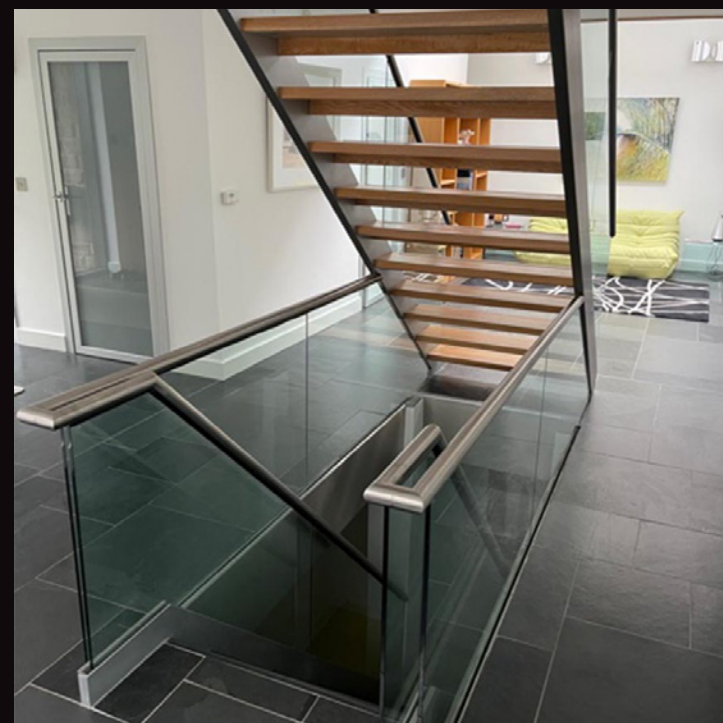

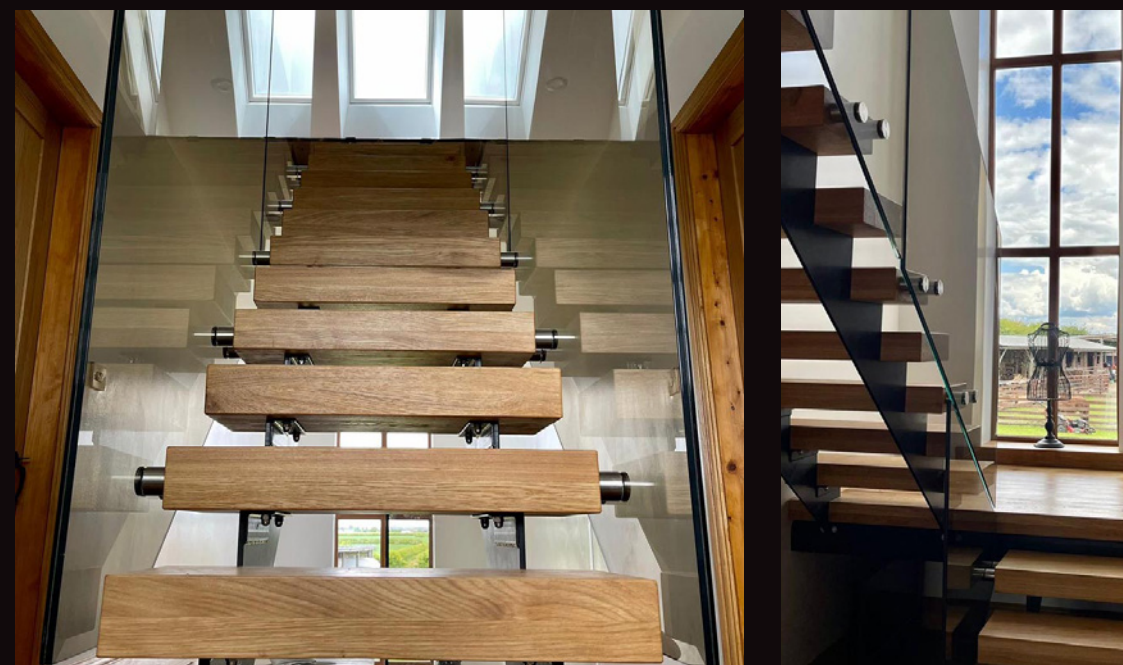

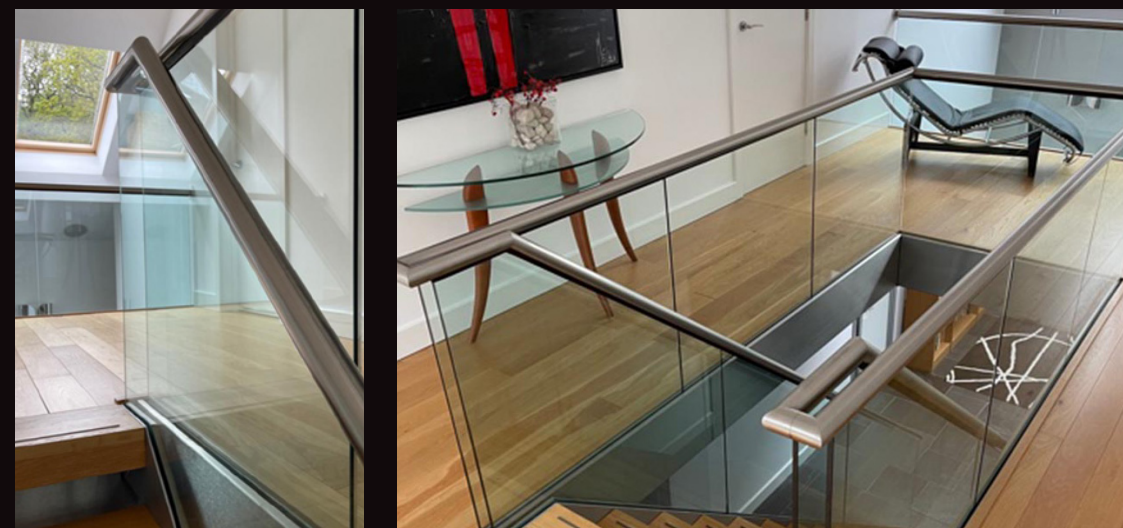

Bring your existing staircase back to life with an array of materials and finishes. Incorporate glass and wood for a warm, contemporary feel, or metal elements for a sleek, modern look.

Our renovation service is a quick, mess free way to achieve the look of a brand-new staircase. Take a look at some of our projects with these before and after pictures.

What is Low Iron Glass?

Unprecedented Clarity

Low Iron Glass is a specialist glazing solution offering unprecedented levels of clarity and transparency in large glass items.

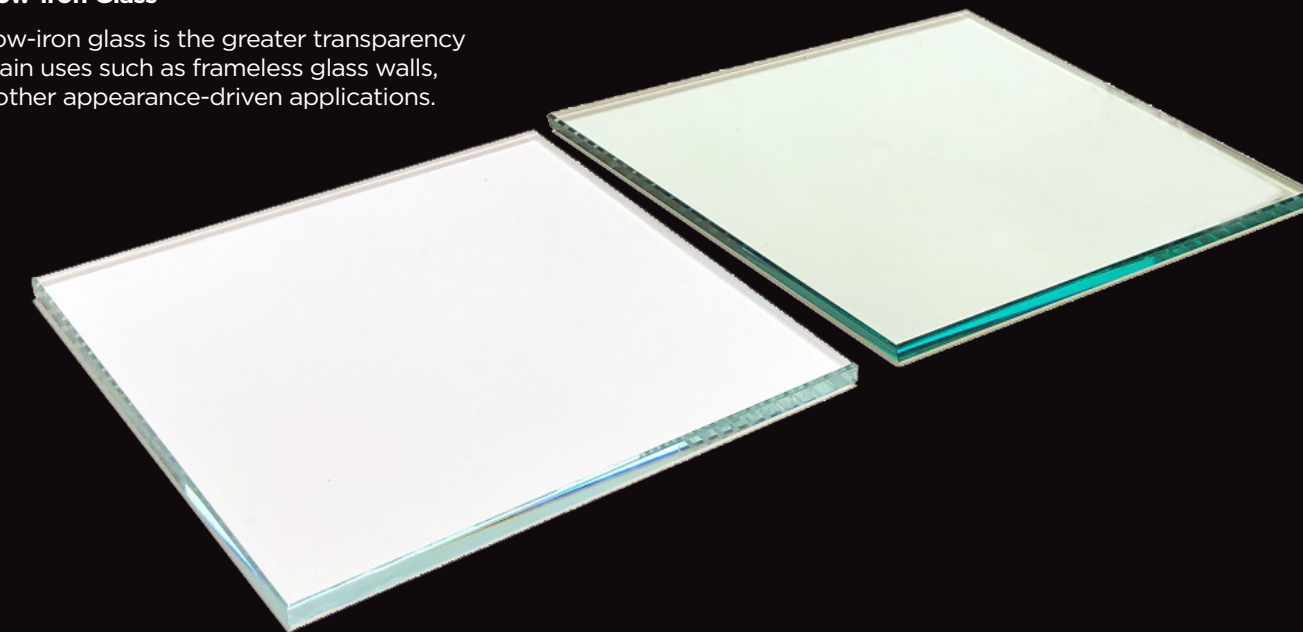

When the glass is produced it is laced with a natural impurity of iron oxide. In thicker glass units, such as laminated or structural glass elements, this impurity produces a noticeable 'greening' tint to the glass. In projects and items where transparency and purity of colours are desired Low Iron Glass is always recommended.

This glass is made using iron free silica and other materials with naturally low iron contents. The melting process is tightly controlled to ensure that the product properties remain consistent resulting in a glass panel where the iron content of the glass is greatly reduced (hence the name - Low Iron Glass).

From an internal perspective, Low Iron Glass can achieve light transmission values of up to 91% making it the clearest building material available.

The Difference Between Clear Glass & Low-Iron Glass

The difference between clear glass and low-iron glass is the greater transparency of the latter, making it more ideal for certain uses such as frameless glass walls, balustrades, partitions and dividers, and other appearance-driven applications.

Don't just take our word for it!

Here's a selection of what our customers have to say...

Friendly and professional service from start to finish. Everyone concerned was reliable, knowledgeable and skilled and we are delighted with the quality and look of our lovely new stairs.

We would not hesitate to recommend this company.

Thank you to all concerned- Paul, Joe, Tom, Sam and Dan.

Neil and Sue

My Glass bannister is amazing what a difference it has made to the hall and stairs, it has really opened up the space. The glass is lovely and great quality. The fitting team were fab great guys and clean and tidy thank you. The whole experience was seamless and professional from start to finish.

Thank you team Glass Solutions!

Joanne Rooke

Really pleased with the work delivered by HGS. Great bunch of lads who worked really hard and were very professional and very tidy! Their focus on the quality of work and the final product was great. Thanks very much.

Bernard Conlon

5 stars once again for this company. Professional and friendly team, loving my new glass doors into my living room. Thank you, Paul and the team, fantastic job

Marianne Carmody Weir

Amazing company, we had a glass balcony put in two years ago. Today Tom and Sam came out to secure and tighten everything up. Pleasant guys who worked hard and cleaned up after themselves.

I would highly recommend this company for any glass work you need doing . Thank you

Amanda Reay-Young

Thank you so much Paul from Glass Solutions from advice on the designs to installation by your craftsman teams. Tom, Sam, Dan & Joshi worked diligently to fit everything in one day and we're most polite and did a great clean up!

The balustrade and handrail are perfect - elegant and beautiful. The clear glass and American oak just make the landing super bright and airy.

The bi-fold glass French doors are amazing. Almost invisible in the space which means we have that light and airy feeling but also give a minimal elegance to a compact space.

Quality products installed by craftsmen from an outstanding company.... Thank you

Andrea Hardgreaves

Absolutely LOVE our glass bannister. The old one was brown spindles and the new white wood with glass changes the whole house, every time I come out of one of the rooms it's what I see. The hall way and landing are so much lighter and it gives the impression of a much larger space!

The team were great from Paul providing the quote to the office team who kept me fully up to date on the progress of our order. To Tom and Josh who fitted it who were professional but it's also good to be able to have banter with those you invite into your house!

Tracey Charleton

Fantastic customer service, personal touch throughout and can not recommend highly enough. Will definitely be having the team back when we refit the internal staircase.

Gemma Woodhead

We had a few quotes before I came across Glass Solutions but the minute I met them I knew this company was who I wanted to work with. They are not pushy sales what so ever, they go above and beyond to give you all the options you need and discuss what's right for you. From getting the quote, to the day of fitting they keep you updated every step of the way and work around you. I cannot recommend them enough and will definitely use them again in my home in the future. Thank you so much for giving my boys a safe, secure but stylish garden to enjoy playing in.

Nadine Griffin

Absolutely amazing service from the first phone call, to coming out and surveyors, updates throughout and the whole fitting. Everyone I dealt with were so welcoming and kind, no pressure whatsoever. We could not recommend enough!

Tara Dee

From initial contact through to completion we were extremely impressed by the quality and professionalism of all members of staff that we dealt with. We were informed with regular updates, the staff are friendly informative. The site operatives were polite and respected the property and furnishings. Glad we chose Glass Solutions for our staircase and cannot recommend this company enough. Thank you

Michael Spivey

Highly recommend! 5*

What a superb company to deal with, extremely professional and fabulous finished product.

A special mention for Joanne, Paul, Josh & Sam - all excellent to deal with from start to finish. We absolutely love our kitchen mirrored splash back - it finishes off our extension beautifully.

Rachel Hore

Exceptional service from start to finish. Glass Solutions were great in helping us not only choose the perfect splashback for our newly renovated kitchen but it was also fitted in under 6 weeks before the Easter break. Brilliant service especially as we had family visiting and wanted everything completed before they arrived. They kindly accommodated us within their busy schedule. Thank you so much.

If you are looking for a bespoke piece, look no further. Highly recommended and would use again.

Andy Harding

Massive thank you to Glass Solutions of Harrogate for completing our Glass Balustrade today. The quality of workmanship involved in this project is second to none and the company should be proud of the entire team. Well done to all concerned and once again thank you very much. Helen & Tony

Tony Tasker

Really pleased with the service we received from Glass Solutions. Shower screen fits perfectly and looks great. Fitted by Sam who's done a great job and very courteous during his visit today. Great job!

Martine Freestone

Some shots of the HGS team in action, when we opened our Yoga and Pilates studio in Skipton. It is quite some skill set needed to move large pieces of glass and mirror into place, and so impressive watching the lads overcome every challenge you encounter on any big job like this. So no hesitation asking them to do the same in bigger Harrogate studio. If your job needs the A Team, you pay for the best of course, but you buy a guarantee of a positive problem solving fitting experience and a superb finish, so add it all up and HGS offer value for money. Look forward to seeing you soon lads!

Jonathan Roberts
